EXPERTISE

Programming Languages: Proficient in Python, C++, and Java.

Web Development: Experienced in building dynamic and database-driven web applications using HTML, CSS, Flask, and SQL Server.

Database Management: Skilled in SQL Server with hands-on experience in designing, querying, and managing relational databases.

Artificial Intelligence: Practical knowledge of machine learning, classification models using Python libraries.

EXPERIENCE

I may not have formal industry experience yet, but I have developed strong practical skills through academic projects and personal initiatives, and I am passionate about working in the fields of artificial intelligence, web development, and data management. I continuously seek opportunities to apply my skills and grow professionally.
